

NEC Display Solutions

NEC Cisco Partnership

Smarter collaboration and conferencing with Cisco

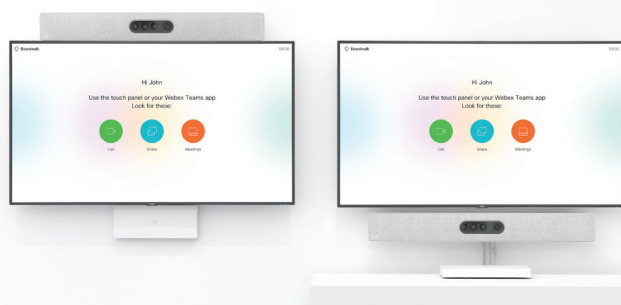

Connect your NEC large format displays to the Cisco Webex Room Kit Series (including Room Kit, Room Kit Mini, Room Kit Plus and Room Kit Pro) with just one cable. It's an easy way to upgrade your meetings and streamline the way you connect with your colleagues. With this plug-and-play solution, you can enjoy the best possible communications experience with pre-configured color settings and low latency for true lip-sync optimization on video calls. The integrated auto-switch source detection for incoming calls makes sure you'll never miss a call during a meeting again.

Cisco Compatible NEC Displays:

V404	V484	V554
P404	P484	P554
V554Q	V654Q	V754Q
V864Q	V984Q	C651Q
C751Q	C861Q	C981Q

- Plug & play setup via 1x HDMI cable to the screen
- Auto input change for incoming calls
- Low latency mode for better lip sync
- Optimized color preset for presentation and video conferencing
- Switch off/on the display automatically

With professional brightness and haze levels, you can now let the daylight into your meeting without compromising picture quality or clarity. NEC's large-format displays, with their optional colored bezels, provide a natural match to the Cisco Webex Room Kits. The portfolio of certified screens fits any meeting scenario with 9 UHD models and 6 FHD models ranging from 40" up to an immersive 98", which together with the Webex Room Kits, can bring video conference to rooms of all sizes, from huddle spaces to extra-large boardrooms and team rooms. The Cisco Touch 10 control unit makes starting and controlling your meeting environments intuitive and straightforward with just a touch of your finger. Think smarter meetings, smarter collaborations, and smarter presentations.
