NEC DISPLAY SOLUTIONS BREAKS NEW GROUND WITH BEST-IN-MARKET 5-YEAR WARRANTY FOR PROFESSIONAL SIGNAGE DISPLAYS

Four professional-grade large format displays now come with even greater warranty support and peace of mind

CHICAGO, August 14, 2017 NEC Display Solutions of America, Inc., a leading provider of LCD displays and commercial projectors, today announced that it will offer a 5-year warranty for four of its P series signage display models, substantially exceeding the industry standard of providing 3-year warranties for similar products.

"We're passionate about the engineering and reliability of our new professional signage displays," said Ben Hardy, Product Manager at NEC Display Solutions. "We're always seeking new ways to provide the highest level of support for our customers, and the robust design and build of these models gives us the confidence to offer this 5-year warranty." Some display manufacturers offer buyers an option to increase warranty coverage from 3 years to 5 years on select models, but these warranty extensions require an additional cost of several hundred dollars.

NEC Display Solutions' pioneering 5-year warranty plan covers four P-series models:

- P404 will be supported from the first shipment.
- P484 will be supported from the first shipment.
- P554 will be supported from the first shipment.
- P703 will be supported on purchases made on or after August 1, 2017.

These models are popular choices for 24/7 signage in airports, quick-serve restaurants, financial institutions, command-and-control centers, and other venues.
